and second corner-shaped stroke, the corresponding command instructs the Web browser to select an area of the Web-based document bound by the corner shaped strokes.

31. (New) The method according to claim 25, wherein when the gesture includes the shaking of a selected area of the Web-based document, the corresponding command instructs the Web browser to copy the selected area.

Remarks

This Preliminary Amendment cancels, without prejudice, claims 1-8 and adds new claims 9-31. The new claims do not add new matter to the application. Applicants asserts that the subject matter of the present application is new, non-obvious, and useful. Prompt consideration and allowance of the application are respectfully requested.

Respectfully submitted,

Dated: 3/20/01
